

Environmental & Green Initiatives

Unique Benefits of

Mobile Wastewater Processing

Automatic containment and collection of the wastewater - No storm drain runoff.

Removes & permanently fixates oil, grease, metals, paints, PCB's, Non hazardous solid.

Recycle and reuse the wastewater or legally discharge to the on site sewer.

One quart of used motor oil contaminates 250,000 gallons of fresh water.

Pressure washers generate approximately 10,000-20,000 gallons of wastewater for every 100,000-150,000 square feet of surface cleaned.

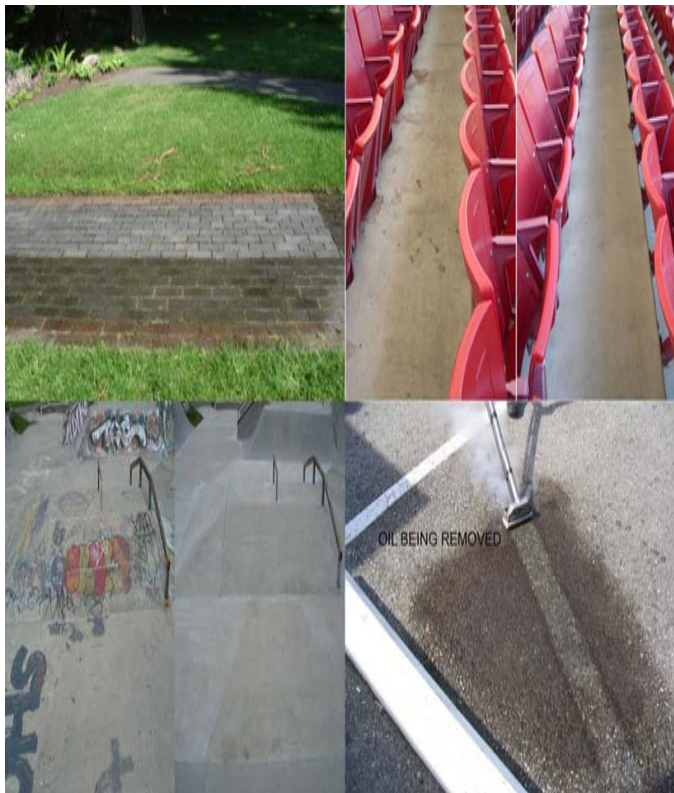

Proven, patented technology - Patent #5,979,012.

Government tested and approved.

Reduces the cost and liability to store, haul, manifest and dispose of hazardous wastewater or solid waste

On March 15, 2004, the Clean Water Act civil administrative penalties were increased to \$32,500, for Class I penalties and \$157,000 for Class II penalties.

OUR STATE OF THE ART EQUIPMENT
ALLOWS US TO RECLAIM , RECYCLE AND
REUSE 98% OF THE WATER USED ON-SITE.

Organic & Environmental Systems, Inc.

Mobile Pressure Washing & Wastewater Recycling Services

Organic & Environmental Systems, Inc.

Our company offers various cleaning and removal services utilizing heated pressurized water and hot dry steam vapor.

Our advanced Mobile Pressure Washing and Wastewater Recycling Services are specifically designed to perform environmentally safe pressure washing and water jet cleaning activities in an efficient, fast and affordable manner.

We specialize in **Pressure Washing, Concrete and Flatwork Cleaning, Dry Steam Vapor Cleaning, Graffiti Removal and Oil Removal**. The company utilizes organic and environmentally safe chemicals to assist with the cleaning process.

We service the Metro Atlanta area and surrounding counties and special projects covering the Southeast region including Alabama, Florida, Georgia, North Carolina, South Carolina, Tennessee servicing commercial, industrial and customers.

We reclaim, recycle and reuse 98% of water used on-site.

Our **State of the Art Pressure Washing and Wastewater Recycling Equipment** contains, collects and treats the waste water generated on site of each cleaning operation. This process eliminates the cost and liability associated with storing, manifesting, transporting and disposing of hazardous water waste.

We also offer **Waterless Concrete Cleaning Solutions**.
